

Introducing the new

rigidek

Give your truck a **trunk!**

“your Rigidek will compliment the styling of your truck”

Whether functioning as the family's transport, a hunter's workhorse, or the Mrs' getaway vehicle, the Nissan is a stylish, durable machine.

Adding a Rigidek load bin cover will make this already versatile bakkie irresistible.

Rigidek Elevates the Ideal Nissan bakkie

- Got the need for speed? It's the name of the game with the Rigidek, which can be removed in just 30 seconds.
- 'Package friendly' accessory hooks ensure that your shopping bags can be secured for the drive.
- Whatever you do, do it in style as your bin cover can be colour coded to match your vehicle.
- A sleek finish is guaranteed, with no visible latch or keyhole.
- The patented auto-locking system makes life easier- simply lock the unit by closing it.
- Your Rigidek is a dust and moisture free zone with the double lock mechanism.
- The installation process involves fitting utility rails to the load bin- quick and simple.

Roll-bar optional

Even More Rigidek Features:

- At just 20kg the Rigidek is the lightest full featured aluminum cover in the world.
- The Rigidek has gas springs incorporated into the unit to assist.
- 'Full bolt-on' installation process means no extra holes drilled into your vehicle.
- Roll bars and easy-down mechanisms for your tailgate.
- The rubberizing on the unit itself will ensure that potential friction damage is eliminated.
