Give your truck a **trunk**®

rigidek

Adding a Rigidek load bin cover will make this a resourceful bakkie

- Got the need for speed? It's the name of the game with the Rigidek, which can be removed in just 30 seconds.
(Model and sport-bar dependant)
- 'Package friendly' accessory hooks ensure that your shopping bags can be secured for the drive.
- A sleek finish is guaranteed, with no exterior latch or keyhole.
- The patented auto-locking system makes life easier. Simply lock the unit by closing it.
- Your Rigidek is a weather proof zone with the double lock mechanism.
- The installation process involves fitting utility rails to the load bin - quick and simple.

Even More Rigidek Features:

- At just 20kg the Rigidek is the lightest full featured aluminum cover in the world.
- The Rigidek has gas springs incorporated into the unit to assist opening.
- 'Full bolt-on' installation process means no extra holes drilled into your vehicle.
- Easy-down mechanisms for your tailgate.
